

Maria Lugossy (1950-2012)

has died after some years of heavy sufferings from a brain-tumour. She has been a member of FIDEM since 1979 and was awarded with the Grand Prix in London in 1992. She was very talented, kind and successful sculptor and medallist. She was very innovative in art, very cooperating in all of her connections: as leader, as organizer, as colleague and as friend. Her death is a great loss for medal-art, for sculptors, for our artist organizations, for her family, for friends, and for me as well.
